RE: Green Mountain Power Corp. v. Donald and Shirley Nelson
Docket No. 256-10-11Oscv

Dear Penny:

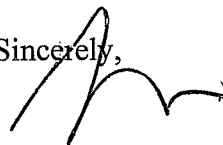

Enclosed for filing in the above-referenced matter please find the following:

1. Motion for Permission to Appeal pursuant to V.R.A.P. 5(b)(1);
2. Motion for Reconsideration of Court's Preliminary Injunction and for Amendment of the Preliminary Injunction issued on November 1, 2011.

This cover letter and referenced documents are being filed in hard copy by hand-delivery, but they have my electronic signature only. I am mailing a duplicate original with my original signature on each documents. I trust this will prove satisfactory to the court.

We request that these matters be brought to the court's attention at the earliest possible moment as the interlocutory appeal process is intended to provide an avenue for expedited appeal. If the court is not inclined to grant the motion, we ask that the court nonetheless act promptly in denying the motion so that we will have an opportunity to appeal the denial before the issue becomes moot.

Sincerely,

P. Scott McGee
