

MISSION STATEMENT

LOWELL MOUNTAIN OCCUPIERS

The mission of the Lowell Mountain Occupiers is to help the people of Vermont develop a humane and sustainable energy policy that: 1) Effectively addresses global warming through reduction of CO2 emissions, and 2) Is informed by science and objective analysis.

We cherish the long-held Vermont values of integrity, respect for the individual, private property, the importance of our environmental heritage, an educated citizenry, and personal courage in the face of injustice.

We acknowledge that this mission places us in direct conflict with corporate efforts to maximize profits and unduly influence government policy.
